You can take what's Mine

If you like my love
You can take it
We've known us for so long
We never win each other's home.

I'm giving you this choice
You can take what's mine
Or never, for all time.

You can take what's mine
And never leave my love behind
For my love is worth your time
Without giving up your precious rhyme.

Leave me or love me
And take what's mine
Take my love, my lovely heart
If you choose to never part.

Say "Hello, I love you dear"
Take what's mine and be sincere
Take what's mine and all my love
I know you can, just know you have.

Love me, in love
And take what's mine
And all my love will blossom free
My heart in your eternity.
